

MadSerialisable

```
classDiagram
    class MadSerialisable
    class MadData
    class MadModel
    MadData --|> MadSerialisable
    MadModel --|> MadSerialisable
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'MadSerialisable'. Below it are two boxes, 'MadData' on the left and 'MadModel' on the right. A horizontal line connects the two bottom boxes, with a vertical line extending upwards from its center to an arrowhead pointing at the bottom of the 'MadSerialisable' box. This indicates that both 'MadData' and 'MadModel' inherit from 'MadSerialisable'.
